## F. Information

### 1. Grading systems of the institutions

#### F GRENOBL01

The academic year is on a semester basis with each semester worth 30 ECTS as defined in the Bologna agreement of the European Higher Education System.

Grades are on a scale from 0 to 20 where 10/20 is the average passing grade.

However, in the French academic system, grades are viewed as a whole set for a semester which means that it is not only the individual grade in a given class that must be considered but the set of grades for a semester.

At the Bachelor's level, the average of all classes in a semester must be greater than or equal to 10/20.

At the Master's level, the overall average for all classes in a semester must be greater than or equal to 10/20 **AND** all individual class grades must be greater than or equal to 7/20.

In addition, grades in a class are a combination of knowledge based grades and competencies. Hence it is not strictly the rule that is to be learned but the concept behind it must be understood as well.

The following grading table reflects the way grades are given at UJF for a semester. Although very high grades are seldom given for classwork, grades for practicals, labs and internship rarely go below 10/20.

Grade/20 for a semester based on rule above	European Grading System
18-20	Very uncommon (approx. 1 out of 1000 students). Brilliant and exceptional results
16-18	Outstanding performance, first-rate results
14-16	Very good to excellent results.
12-14	Good to very good results
10-12	Passing to satisfactory results
10	Lowest passing grade: standard has been met but with a number of notable errors
< 10	Fail, further work required
